JASWANTH R

DevOps Engineer | Site Reliability Engineer | Cloud DevOps Engineer
+918688086646 • raminenijaswanth26@gmail.com • LinkedIn • Github • Bangalore, India

Summary

DevOps Engineer with 2.2+ years of experience in Infrastructure Automation, AWS Cloud, CI/CD, and Configuration Management. Skilled in Ansible, Terraform, CloudFormation, Jenkins, Docker, Kubernetes, Git, Python, and Bash Shell scripting to automate infrastructure provisioning, application deployments, and operational workflows. Hands-on experience with AWS services, Helm, Prometheus, Grafana, Splunk, ELK, Maven, JFrog Artifactory, SonarQube, Black Duck, Fortify, and REST API integrations. Proficient in Linux administration, Infrastructure as Code (IaC), cloud automation, monitoring, troubleshooting production issues, and delivering scalable, secure, and highly available infrastructure solutions.

Skills

Programming Languages: Python · Golang (Fundamentals) · Shell scripting (Bash) · Python Automations

CI/CD & Version Control: Jenkins · Git · GitHub · GitLab · CI/CD Pipelines · Release Management · Deployment Automation

Cloud Platforms & Deployment: AWS(IAM.EC2.VPC.S3.CloudWatch.Route 53) · Amazon Web Services · Microsoft Azure

Infrastructure as Code (IAC) & Configuration: Terraform · Ansible · CloudFormation

Containerization & Orchestration: Docker · Kubernetes · Helm Charts · Containerization · Microservices

Observability & Monitoring: Prometheus · Grafana · Splunk · ELK · Application Monitoring · Infrastructure Monitoring

Build Tools & Package Management: Maven · JFrog Artifactory · Repository Management · NPM

Application Security (AppSec): SonarQube · Black Duck · Fortify (SAST/DAST)

Linux & Networking: Ubuntu · Linux · VMWare · CentOS · Load Balancing · Networking · Security · Troubleshooting · Debugging

Databases & Support Tools: MySQL · MongoDB · REST APIs · Zendesk · Zoho Desk

Experience

Meritto(NoPaperForms)
Meritto, Bangalore

DevOps Engineer/Implementation Specialist II
06/2024 - Present

- Built and maintained end-to-end CI/CD pipelines using Jenkins, Git, GitHub, and GitLab, enabling faster, reliable, and automated application deployments across multiple environments.
- Provisioned and managed scalable cloud infrastructure on AWS using Terraform, CloudFormation, and Ansible, ensuring high availability, security, and consistent infrastructure deployments.
- Automated server provisioning, configuration management, and infrastructure maintenance using Ansible, reducing manual intervention and improving operational efficiency.
- Developed automation scripts using Python and Bash to streamline deployment processes, infrastructure operations, monitoring tasks, and routine system administration.
- Containerized applications using Docker and deployed microservices on Kubernetes, leveraging Helm Charts for version-controlled, repeatable, and reliable application releases.
- Implemented monitoring, logging, and alerting solutions using Prometheus, Grafana, Splunk, ELK Stack, and AWS CloudWatch, enabling proactive issue detection and improved system reliability.
- Integrated SonarQube, Black Duck, and Fortify into CI/CD pipelines to automate code quality checks, security scanning, and compliance with DevSecOps best practices.
- Managed Linux (Ubuntu/CentOS) servers, performed troubleshooting, performance tuning, patch management, and root cause analysis to maintain stable production environments.
- Worked with REST APIs, Maven, JFrog Artifactory, and NPM to support application build, artifact management, package deployment, and release automation across development workflows.
- Collaborated closely with development, QA, and infrastructure teams to automate deployment workflows, optimize release management, resolve production issues, and deliver reliable software in Agile environments.

Education

Indian Institute of Information Technology (IIIT), Kadapa
2019 - 2023

B.Tech - Mechanical Engineering

Awards

Abhimanyu Award — Received the Abhimanyu Award for exceptional performance, rapid onboarding, and impactful contributions to automation and infrastructure initiatives
